

Carmine Cicalese

President & Founder of Cyber CIC, LLC

Carmine Cicalese is the President and Founder of CYBER CIC, LLC, a consulting business to provide clients with cyber, information and cognitive security strategies and courseware. CYBER CIC is currently advising Department of Defense clients on cyber training environment strategy and resource planning. CYBER CIC is assisting the Army in developing analog and digital information warfare wargames. Carmine also developed a cyber wargaming roadmap for the College of Information and Cyberspace at the National Defense University. Starting in fiscal year 2020, CYBER CIC is teaching Introduction to Cyber Warfare and Cyber for Program Teams to Naval Air Systems Command personnel, so the client can design cyber resilient airworthy platforms.

Carmine draws from his twenty-nine-year military career culminating as a United States Army Colonel as the Army Staff Chief of Cyberspace and Information Operations. He led the Army's efforts to establish the necessary strategy and policy for its contributions to the cyber mission force and tactical cyberspace capability. Throughout his military career, he led demographically and functionally diverse organizations accumulating a wealth of leadership knowledge and experiences in a variety of austere, garrison and educational situations.

Carmine volunteers for 501(c)3 & (c)6 organizations as a mentor lead for the Military Cyber Professionals Association and as a Board Advisor for the Information Professionals Association. He also serves as an article prepublication editor for Joint Forces Quarterly and as a member of the C4ISRNET Editorial Advisory Board.
